

ENOCHS POWER 2000

HIGH-LOW TREATMENT TABLE

Attainable Positions: Flat

Power System: Electro Hydraulic

Adjustments by "Easy Touch" Foot Control:
Height - 23" to 39"

Dimensions: Length - 72"
Width - 32"
Height - 23" to 39"

Accessories: Restraint straps

One-piece upholstered top design eliminates cross seams, decorative embossing and crevices that collect dirt and make cleaning difficult. Covered in durable, easy to clean Naugahyde® upholstery manufactured to be wear, stain, mold, mildew and oil resistant.

Paper Roll Holder is concealed at head end of table and accommodates 18" or 21" paper.

Paper Cutter located at headend of table.

"Easy Touch" Foot Control adjusts table's height with reliable hands-free action. Pedal is covered with non-slip tread and utilizes a natural side-to-side movement of operator's foot.

Padded with 1½" **High-density Foam** for patient comfort.

The 16" Range of Height adjustment allows patient to be positioned to a comfortable height for staff.

Table Rating: 120 VAC 60 Hz 12 A
Patient Load: 400# evenly distributed

Table is UL Listed

ENOCHS is an ISO 9001:2000 and WOB Certified Company

"Easy Touch" foot control allows smooth adjustment of table's height. Use of the foot control reduces incidents of cross contamination possible with hand-held controls. Operator utilizes the natural side-by-side movement of the foot on the control pedal to adjust the patient to desired height for the examination or treatment.

The extra wide 32" top of the Power 2000 makes it an ideal high-low table for general treatment, physical therapy and casting. The one-piece upholstered top is free of cross seams and decorative embossing which promotes quick efficient cleaning after each patient. Top is padded with 1½" of high-density foam for patient comfort.

Table quickly and smoothly adjusts in height from a low 23" to a full table height of 39". The table provides low access for disabled and geriatric patients in wheelchairs and those using walking aids. The low access point also reduces back stress or injury of staff assisting patient on or off the table. The height adjustment range of 16" allows physician or staff member to position patient at convenient working height.
